

## Interior

PRODUCT DATA SHEET

Hanson Plywood Ltd are birch specialists who stock a large and comprehensive range of Birch Plywood

Interior Birch Plywood is a multiply, cross banded plywood made entirely from Birch veneers. The varied range of face qualities, thickness and sheet sizes available allows us to supply the ideal product to cover your needs.

An interior glueline means that Interior Birch Plywood is bonded with a colourless, urea-formaldehyde glue which allows clean, burn-free cutting when cut with a laser and also allows use where a clear end grain is required. Applications for this quality are wide and varied, ranging from packing cases through to high quality furniture.

### Applications

Furniture components, packaging, shop fitting, display cabinets.
